

BUI TONG GIANG

Hanoi, Vietnam | Email | LinkedIn | Portfolio | Writing Portfolio | GitHub

Summary

Learning and Development practitioner with 3 years of experience designing digital learning experiences, training content, and AI-supported learning tools. Strong background in diagnosing learning needs, creating structured training roadmaps, developing e-learning materials, and supporting learner performance improvement in workplace and educational settings. Passionate about applying technology and AI to make employee training more personalized, measurable, and scalable.

Education

Hanoi University of Science and Technology (HUST)

Bachelor of science in educational technology | GPA: 3.45/4.0

Hanoi, Vietnam | 2022 - 2026

Experience

Lisburn Academy (International education company)

August 2025 - January 2026

Learning designer

Hanoi, Vietnam

- Collaborated with the academic department to design an English language program, collecting and analyzing student baseline data to propose personalized learning pathways.
- Created instructional slide decks and detailed Excel tracking roadmaps for a group of 10 students requiring foundational remediation.

VTV (Vietnam National Television)

February 2025 - August 2025

Learning content developer (part-time)

Hanoi, Vietnam

- Drafted educational broadcast scripts for the VTV7 channel, integrating content into the educational television program workflow.
- Collaborated with the production team using professional filming equipment to develop educational content, contributing to 2 major television programs on the channel.

HUSCO - S3 JSC (Vietnam National University)

June 2024 - December 2024

E-learning developer (part-time) | [sample lecture video](#) 

Hanoi, Vietnam

- Produced and edited 2nd-grade science lecture videos using CapCut across 2 academic semesters, and wrote digitization scripts to improve remote learning accessibility.
- Co-organized STEM events at international schools including Marie Curie, promoting technology education to hundreds of students.
- Coordinated the “International Drone Coding Competition 2024” in collaboration with FKA Korea, managing nearly 200 contestants from 4 countries and overseeing all technical operations.

TEKY Academy

June 2023 - December 2023

Teaching assistant (Part-time)

Hanoi, Vietnam

- Assisted in delivering programming lessons for elementary students on TEKY’s platform, maintaining high interaction and structured learning.
- Managed and coordinated 2 classes with over 40 students, maintaining an effective LMS-based learning environment and supporting student performance tracking.

Edulive Global Joint Stock Company

June 2022 - September 2022

Learning experience design intern

Hanoi, Vietnam

- Digitized educational materials by converting approximately 3 presentations per day into interactive e-learning modules on the Edulive platform.
- Optimized lesson interactivity by integrating multimedia elements based on interaction models and learner preference data.

Projects

Tutor management web application | AI integration, prompt engineering | github.com/giangxinh05/yuri-tutor

- Built a custom web application for personal tutor management using generative AI and prompt engineering.
- Integrated Claude API to automate progress reporting and parent communication, with Firebase backend and Chart.js visualizations, reducing time spent on administrative and parent interaction tasks by up to 70%.

VR/AR language link training program | Instructional design, VR/AR

- Contributed to upgrading a staff training program for Language Link by integrating VR 360 technology.
- Deployed a virtual reality training module adopted by the center, receiving positive feedback on training effectiveness (reducing employee training time by 33%).

Real-time Emotion Tracking Robot System | Team leader, gPBL program | [slides](#)

- Led a multidisciplinary international student team in the Global Project-Based Learning (gPBL) program at Shibaura Institute of Technology to build a real-time emotion tracking robot.
- Coordinated hardware and software integration addressing real-time classroom interaction and lecture quality evaluation, reducing manual assessment time for teachers.

Leadership & Extracurricular

EdTech Innovation Club	2021 - 2023
<i>Vice president</i>	<i>HUST</i>
• Led content creation for the club’s fanpage, growing the audience organically to 2,000 followers. • Organized multiple STEM events and scientific research activities to promote academic engagement among university students.	
Faculty of Educational Technology	2021 - 2022
<i>Outstanding Officer (Awarded by the Dean)</i>	<i>HUST</i>
• Actively contributed to school-level STEM initiatives and scientific research, receiving a certificate of merit for outstanding leadership.	

Skills & Languages

Languages: Vietnamese (native), English (C1), Japanese (JLPT N4)
Technical: HTML, CSS, JavaScript, React, TypeScript, Firebase
Platforms & Tools: Moodle LMS, CapCut, SPSS, MongoDB, Google Workspace, Microsoft Office
Core Competencies: Instructional design, e-learning digitization (SCORM), AI prompt engineering (Anthropic API), LMS administration, STEM event coordination, educational content writing, multimedia production
