Summary

EdTech and learning experience design professional with hands-on experience in instructional design, e-learning development, and training innovation. Driven by a strong interest in solving real learning and operational challenges, I have built digital tools, integrated AI-powered workflows, and developed technology-enhanced training solutions across educational and corporate settings. I am particularly interested in the impact of AI on learning and aspire to contribute to both practice and research in this area.

Education

Hanoi university of science and technology (HUST)

Bachelor of science in educational technology | GPA: 3.45/4.0

Hanoi, Vietnam | 2022 - 2026

Experience

VTV (Vietnam national television)

February 2025 - September 2025

Learning content developer (part-time)

Hanoi, Vietnam

- Drafting educational broadcast scripts for the VTV7 channel, integrating content into the educational television program workflow.
- Collaborating with the production team using professional filming equipment to develop educational content, contributing to 2 major television programs on the channel.

HUSCO - S3 Jsc (Vietnam national university)

June 2024 - December 2024

E-learning developer (part-time)

Hanoi, Vietnam

- Produced and edited 2nd-grade science lecture videos using capcut across 2 academic semesters, and wrote digitization scripts to improve remote learning accessibility.
- Co-organized STEM events at international schools including Marie Curie and coordinated the "International drone coding competition 2024" in collaboration with FKA Korea, managing nearly 200 contestants from 4 countries and overseeing technical operations.

TEKY academy

June 2023 - December 2023

Teaching Assistant (part-time)

Hanoi, Vietnam

- Assisted in delivering programming lessons for elementary students on TEKY's platform, maintaining high interaction and structured learning.
- Managed and coordinated 2 classes with over 40 students, maintaining an effective LMS-based learning environment and supporting student performance tracking.

Edulive global joint stock company

June 2022 - September 2022

Learning experience design intern

Hanoi, Vietnam

- Digitized educational materials by converting approximately 3 presentations per day into interactive e-learning modules on the Edulive platform.
- Optimized lesson interactivity by integrating multimedia elements based on interaction models and learner preference data.

Projects

Tutor management Web application | AI integration, prompt engineering | github.com/giangxinh05/yuri-tutor

- Built a custom web application for personal tutor management using generative AI and prompt engineering.
- Integrated Claude API to automate progress reporting and parent communication, with Firebase backend and Chart.js visualizations, reducing time spent on administrative and parent interaction tasks by up to 70%.

VR/AR Language Link Training Program | Instructional design, VR/AR

- Contributed to upgrading a staff training program for Language Link by integrating VR 360.
- Deployed a virtual reality training module adopted by the center, receiving positive feedback on training effectiveness (reducing employee training time by 33%).

Real-time Emotion Tracking Robot System | Team leader, gPBL program | [slides](#) [🔗](#)

- Led a multidisciplinary international student team in the Global Project-Based Learning (gPBL) program at Shibaura Institute of Technology to build a real-time emotion tracking robot.
- Coordinated hardware and software integration addressing real-time classroom interaction and lecture quality evaluation, reducing manual assessment time for teachers.

Leadership & Extracurricular

EdTech Innovation Club	2021 – 2023
<i>Vice President</i>	<i>HUST</i>
• Led content creation for the club’s fanpage, growing the audience organically to 2,000 followers. • Organized multiple STEM events and scientific research activities to promote academic engagement among university students.	
Faculty of Educational Technology	2021 – 2022
<i>Outstanding Officer (awarded by the dean)</i>	<i>HUST</i>
• Actively contributed to school-level STEM initiatives and scientific research, receiving a certificate of merit for outstanding leadership.	

Skills & Languages

- Languages:** Vietnamese (native), English (TOEIC 850), Japanese (JLPT N4)
- Programming & development:** HTML, CSS, JavaScript, Firebase, Chart.js
- Tools & databases:** MongoDB, SPSS, Google Workspace, Microsoft Office, CapCut
- Core competencies:** Instructional design, e-learning digitization, LMS administration (Moodle), AI prompt engineering, STEM event organization, educational content writing, multimedia production
